INCREASED CAPACITY

The MD 600 is a four-place, light, single-turbine engine helicopter that provides high performance and increased capacity to give the customer greater versatility. All with dramatically low operating costs. It flies faster, hovers higher, and provides the agility and exceptional handling for which the MD 500® series is known.

With its advanced NOTAR® anti-torque system, the MD 600 is a member of an exclusive class of the safest, quietest helicopters in the world.

EXCELLENT CONTROL

The MD 600 turbine engine helicopter provides a variety of mission applications ranging from geophysical surveys to air medical services and police surveillance.

The 808-shp Rolls-Royce Model 250-C47M turbine-engine-powered MD 600 includes a fully articulated six-blade main rotor system for excellent control and maneuverability, and an advanced NOTAR® anti-torque system for reduced pilot workload and external noise levels.
